

Bona Prime Trowel

Bona Prime Trowel

Bona Prime Trowel is a one-component waterborne base coat designed for application with trowel. It is intended to be used on hardwood and other wooden floors prior to overcoating with Bona waterborne finishes. Bona Prime Trowel forms a thick, dense film that the top coat will not penetrate. Normally no grain-raising occurs and abrading is therefore unnecessary.

Key Benefits

- Fast system
- High build
- Leaves a clean, smooth surface

Technical Data

Type of finish:	Waterborne trowel primer
Solids content:	Approx. 40%
Mixing ratio:	The primer is 1-component and ready-to-use
Drying time:	10–15 minutes at 20°C / 60% R.H.
Application tools:	Stainless steel trowel
Application rate:	
- On bare wood	25–35 m ² /litre (40–30g/m ²) per coat
- Between coats	approx. 50 m ² /litre (20g/m ²)
Safety:	Unclassified
Flash point:	Non-flammable
Shelf life:	1 year from date of production in unopened original container
Storage/transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport
Disposal:	Wastes and emptied containers should be handled in accordance with local regulations.
Pack size:	3 x 5 litres (44 boxes per pallet)
